

						* What do the data tell you? How will you use this data? How were data from the last cycle used to make changes during this cycle, and What were the results of those changes?
<p>Instructional Goal To provide a graduate level public health education built on public health competencies for students and health professionals within a framework of social justice, health equity and determinants of health. Rationale: The capstone series in the MPH program is designed for students to interact and create professional programs in their workplace.</p>	<p>Applied Practical Experience All MPH students will complete a supervised professional experience capstone project.</p>	<p>Completion of course assignments in Capstones 2. Rationale: MPH students work with Lamar supervisors to use critical thinking skills to develop a project that will impact on the population they wish to serve. Study topic, population and research question should be defined.</p>	<p>Developing the reference list 30 points</p> <p>This is a refining process.</p> <p>1. Find relative literature (if a search yields hundreds of items use MESH terms of other mechanism to reduce the topic).</p> <p>several articles that address the topic in a way you want, use their reference list to find similar research.</p> <p>articles and write down items like research questions ,method info (subjects,</p>	<p>At least a 90% completion rate of Capstone 2 students on assignments with a grade of 80% or greater.</p>	<p>Over 90% of MPH students in Capstone 2 successfully (80% or greater) completed their assignments.</p>	<p>Confusion on assignments and the Capstone process was the major issue found in success for the outcome.</p>

			<p>instruments, etc) to help refine your question and population.</p> <p>reference list and literature review to your more specific parameters.</p> <p>Refining the Research Question (20 points)</p> <p>In Capstone one you should have gotten a topic for your research and begun searching for articles.</p> <p>In Capstone two we need to refine the topic.</p> <p>How do your refine your topic: Examine the literature you have found most closely related to your research topic, look at the way they address the topic.</p> <p>similar with a</p>

specific group  
to be studied.  
If not, examine  
whom has been  
studied in the  
method section  
of your articles  
for possible  
answers.

This was part of  
your Capstone  
one and if you  
have your  
population

	<p>Submission of professional proposal in the Capstone 3 course.</p>	<p>Capstone 3 Assignment (proposal)  Rationale: A grade of 80% is a rigorous standard for this assignment. 1) Professional Paper (study proposal) (100 Points)</p>	<p><a href="#">Capstone 3 assignments</a></p> <p><a href="#">Literature Review (50 pts)</a></p> <p><a href="#">Literature review should contain</a></p> <p><a href="#">a. Introduction</a></p> <p><a href="#">b. Research Question(s)</a></p> <p><a href="#">c. Relevant review of literature (Minimum of 8-10 pages written in APA format)</a></p> <p><a href="#">Methods (30 pts)</a></p> <p><a href="#">Methods should contain:</a></p> <p><a href="#">a. subjects population you wish to study and how many you might wish to participate.</a></p> <p><a href="#">b. Treatment (describe typical session with subjects, might be an education seminar, testing survey etc.)</a></p> <p><a href="#">This could be data base used to conduct the study.</a></p> <p><a href="#">c. Describe any</a></p>	<p>Successful grade on the proposal is 80% or greater. The program goal is 90% success rate for MPH students.</p>	<p>Over a 90% of Capstone 3 students successfully completed their proposals during the 2021-22 academic cycle.</p>	<p>Confusion on assignments and the Capstone process was the major issue found in success for the outcome.</p>
